---

Kids are saying pay to win.. Very fun massively-multiplayer with a lot of content. Why should you play Cubic Castles? 1. It's a perfect time-killer. 2. Friendly and social community. 3. You can team with your friends. 4.. This Game Is Kinda Like Minecraft,Roblox, And Terraria Mixed Wich Is a Perfect Idea. Keep Up the good work and Keep The Updates Agoing :D The Graphics Are Amazing And It Works Well For LowEnd Computer's Or Laptop's Also The Mobile Version Is Exacly Like The Pc Version Wich is What Everybody Would Expect.. I like itr. from the small time i spent in it, the game was pretty bad, and from what i could tell, had a lot of items, in the cash shop relatively exclusively. lots of things where poorly explained or not at all in the brief tutorial.. I've been playing CubicCastles for over 2 years now. It has been my main game for a long time. It has so much to do, building, mining, exploring, chatting with friends, quests, and shopping and there's so much more! I find the game great for finding friends to play with and build with. There are a few bugs here and there but the admins seem to get rid of those pretty quickly. All of the moderators are really nice and helpful and there are plenty of adults playing the game, not just kids. There are pretty frequent updates with new exciting clothes, blocks, and features.. I played this game for about 6 months and got a lot of stuff, still bored, still Pay 2 Win. Never playing this seriously again.. Yes its free easy lots of people will trade anything for anythng f you don't like this game and give it a bad rating just don't rate at all it's free don't u2665u2665u2665u2665u2665 about it you can make an account and get rich fast just stop ok .
